Welcome to the 2008 Info Products Catalogue

This catalogue lists over 600 free and priced books, videos and CD-ROMs that provide essential information for today's agricultural professional. These materials provide up-to-date information on a wide range of agricultural subjects, ranging from new ventures, to crop and livestock production, to agri-tourism. There's something on just about everything!

How to use this booklet:

- The table of contents on pages iii to iv and the index on pages 58 to 65 can help you find the information product you need.
- All products are grouped by subject area and listed by title and agdex number on pages 1 to 34. Priced items are highlighted in bold and include a reference to the page number where a detailed description of the item is available.
- Detailed descriptions of the priced products are included separately, beginning on page 37.
- Items that have been added since the 2007 edition of this catalogue have been marked with a "New" icon.
- Items that have been revised since the 2007 edition of the catalogue have been marked with a "Update" icon.
- There are many ways to order – by calling our toll-free number, online through our website, by fax, or by mail. Details are on the inside covers of this booklet.
- Tear-off mail and fax order forms are included on pages 65 to 68 of this catalogue.

Finding Common Ground

Negotiating Agreements

Finding Common Ground: Negotiating Agreements

This book gives you all the basic information you need to negotiate a win-win agreement. It explains the three-step negotiation process, interest-based negotiations, techniques for reaching agreements, and negotiations in business vs. community organizations. It will help you negotiate with a lender, boss, employee, landlord, community organization or family member. You'll also learn how to treat your opponent with respect while taking care of your own needs. A sample agreement and several worksheets are added features. 53 pages.

Water Wells That Last for Generations - VIDEO

A good supply of fresh, clean water is a valuable resource. And getting that water from groundwater is a process that can't be taken for granted. A water well requires proper planning, construction, managing and maintenance. Find out how you can make your well that best that it can be.

Planning and Construction

A farm couple needs more water to expand their operation. But is their water supply adequate? Do they need a new well? Even though almost every well in Alberta is drilled by a licensed driller, it's important that you, the homeowner, understand both the process and the causes of potential problems. After all, it's your future he's installing. Wells aren't cheap. Learn how to do it right, the first time.

Managing and Maintaining

A farm couple face a problem with their water quality. Depicts some more common problems associated with water wells; what symptoms to look for, and how to deal with problems. Also focuses on the methods and value of regular maintenance.

Shock Chlorination

The presence of iron bacteria is a common problem in wells. See how to detect iron bacteria in your well, why it gets there, and step-by-step instructions on how to shock chlorinate your well to stop it. Shock chlorination is fast, easy and really pays off in terms of better well yield. Why not iron-out your water problems now? (42 min.)

Combines four popular titles on one VHS tape or DVD.

Basic Horse Training

Bill Collins, a well-known horse trainer from Cochrane, Alberta, demonstrates the proper techniques for training a pleasure horse. Excellent for 4-H horse clubs and other individuals or groups interested in training riding horses.

Horse Training

Bill Collins deals with the next stage after "basic training." Learn how to use mechanical aids, from the snaffle bit to the full bridle. Learn how to perform basic maneuvers such as circles, jogs, lope, gallops, stops, flying lead changes and sidepasses.

Training of the Western Horse

The third in the series on how to train a western show horse. Five of the top riders in Alberta describe how they approach the training of a quarter horse for pleasure, riding, trail riding, reining, working cow horse and cutting competitions.

Loading and Trailering Horses

Safety for the horse and the handler while loading and hauling is the main focus of Bill Collins, one of Canada's leading trainers. He looks at selecting the appropriate vehicle and trailer, safety features and how to drive. Also discusses training a young horse to load properly and working with the problem horse.
